

EVENT SANCTIONING PROCESS

Register yourself as a member of Triathlon Ireland.

Once registered make use of the resources and support available to you through the Event Organisation section on the Triathlon Ireland website. Be sure to ask a member of the team if you need any help or advice: events@triathlonireland.com.

Register the event including details of races taking place. This is done through your Triathlon Ireland Membership account.

Review and agree to the terms and conditions of sanctioning an event and pay the event sanctioning fee per event.

You can take advantage of our Online Entry System to manage competitor entries, with a low 5% transaction fee.

At least three months prior to the event, upload your pre-race information including event management plan and course maps. This is done through your Triathlon Ireland Membership Account.

Submit your post-race information detailing competitor numbers and one day memberships used (if applicable). Submit your results to events@triathlonireland.com so competitors can claim their results and rankings.

Triathlon Ireland will process your returns and issue an event invoice along with remittance advice.
